

Working for Health 2030 Seminar 3

From Crisis to Catalyst: Future Proofing the Public Health Workforce to Provide and Protect Health, and Respond to Emergencies

3rd October 2023 11:00-13:00 (GMT +1)

This seminar explores the challenges associated with strengthening an effective public health workforce throughout the globe. How can we create public health workforce that can support the wellbeing of populations across geographical boundaries and respond effectively to health care emergencies?

We are drawing together an exciting range of speakers from a range of international institutions, countries and practice perspectives.

Meet Our Chair and Speakers

Professor Neil Squires (Chair)

Neil is the Director of Global Operations for UK Health Security Agency (UKHSA). He is also a doctor who trained in primary care, tropical medicine and public health. Neil has spent the majority of his career working internationally, including being the Head of Profession for Health at the Department for International Development (2011-2014).

Professor Kevin Fenton CBE, PrFPH, PhD, FRCP

Kevin is the President of the Faculty of Public Health. He is a senior public health expert and infectious disease epidemiologist who has worked in a variety of public health executive leadership roles across government and academia in the United Kingdom and internationally. His specialist interests are in tackling health inequalities, infectious disease prevention and control, climate justice and urban health.

Dr Laura Magaña

Laura is President and CEO of the Association of Schools and Programs of Public Health (ASPPH). She is also the founding President of the Global Network for Academic Public Health (GNAPH), an alliance of seven regional associations representing schools and programs of public health worldwide. Prior to joining ASPPH, Dr. Magaña dedicated more than 35 years to successfully leading the transformation and advancements of public and private universities in Mexico; educational organizations in the United States; United Nations programs; and nongovernmental organizations in Central America and Europe.

Dr Carl Reddy, MB, ChB, FCPHM, M.Sc. (Epi)

Carl is the director of the Training Programs in Epidemiology and Public Health Interventions Network (TEPHINET) at the Task Force for Global Health. Dr. Reddy provides strategic, technical and operational direction to the TEPHINET network which comprises 80 member Field Epidemiology Training Partnerships, regional networks and numerous partners and stakeholders across the globe.

Dr Mollent Okech

Mollent is a seasoned human resource for health professional and trainer in the health sector. She currently works for the World Health Organization based at the country office of Papua New Guinea. She is responsible for providing technical guidance to countries to strengthen the health systems with an emphasis on the health workforce.

Final speakers to be confirmed.
